Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner suggested and it was agreed upon to cancel claims 25 and 27 by examiner's amendment to provisionally place the case in condition for allowance. Discussion of claims 25 and 27 included: that these claims were not seen as allowable at this time because the claims are drawn to kits which do not have the same scope as the other independent compound claims, i.e., claim 1, because the L (leaving group) is not the same as the substituents of claim 1, and that these claims include limitations that appear to be method steps, "displaced by a substituent" and that they contain undefined variables, R' and R". Further stated was that the previously withdrawn claims were fully examined and will be rejoined with the allowed claims.
